## THE PAVILION

Portimão Arena is the most recent, modern and innovative infrastructure of the Fair and Exhibits Park of this Algarve city. It was created out of the need to equip the Algarve with a multipurpose pavilion capable of hosting meetings, banquets and other corporate events, such as brand or product launches, fairs, congresses and even large scale sporting and music events.

Versatility and modularity are thus its main characteristics, with the layout of the space varying according to the type of event and the number of people involved, whether it is a small business meeting of 10 or a large show for 5,000 spectators.

Its remarkable architecture makes this grand space unique, located near the Arade River and in the heart of a region where business opportunities abound and demand for cultural activities is high.

### ALGARVE HALL

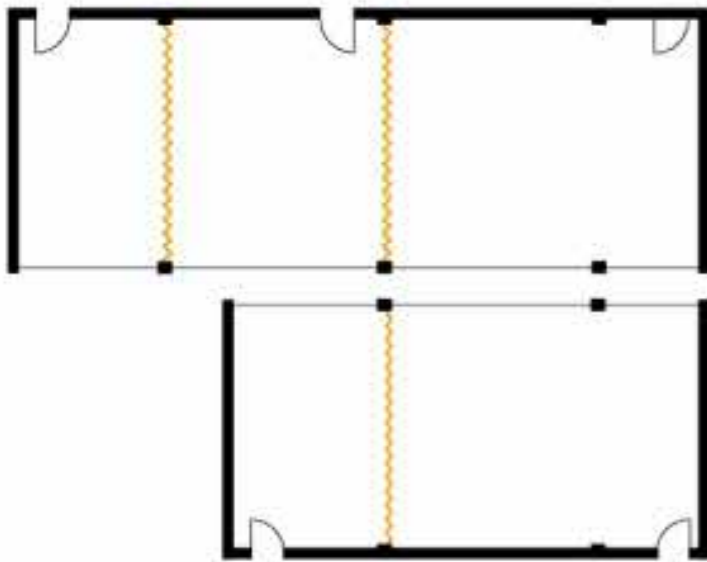

Central arena measuring 4,012 m<sup>2</sup>, equipped with retractable and moveable seats with a maximum capacity for 3,028 seated spectators and maximum standing room for 8,200.

The space is modular and can be divided into three parts via separation curtains for holding simultaneous events. It can also take on various configurations in accordance with the type of event. The floor of the exhibition area is fully equipped with access points for water, power, sewage and telecommunications distributed in accordance with a modular occupation of 3 x 3 metres.

## LOCATION

Located within the 7 hectares of Parque de Feiras e Exposições de Portimão (Fair and Exhibits Park of Portimão), overlooking the Arade River and in the heart of one of the most dynamic areas of the Algarve, Portimão Arena is in a privileged location.

It is close to the Algarve's main cities and only 35 minutes from Faro International Airport via A22 motorway. The A22 connects to the A2 and A49 motorways, with Lisbon and Seville 2 hours and 30 minutes away. It is close to the Cruise Ship Port of Portimão where some 40 thousand cruise passengers pass through annually.

The Algarve is a region renowned for its tourist attractions, offering a broad and distinct range of lodging (60% of the country's total capacity), boasting exceptional conditions for organising large scale events and hosting numerous simultaneous activities and attractions. The municipality of Portimão is a prime example of these assets, arguably one of the country's most dynamic municipalities, both economically and in terms of tourism.
